Collins Computing Appoints Donna Armstrong to Lead Sales Team

MISSION VIEJO, CA — SEPTEMBER 19, 2007—Collins Computing today announced the appointment of Donna Armstrong as Director of Sales. Formerly Area General Manager of Microsoft's Solutions and Partners Group in Southern California, she brings to her position more than 27 years of software sales, business development and management experience.

"Our ability to identify with the needs of our customers is the foundation of our business," said Randy Forkner, *president*, Collins Computing. "Donna is passionate about empowering businesses to realize their goals through the utilization of technology and business applications. She knows this space better than most and is a strong addition to our leadership team."

"I am very excited to be joining an organization that has a long history of empowering organizations through technology and superior customer service. Collins is well respected within the community and I look forward to expanding their impact" states Donna Armstrong.

Armstrong brings to Collins Computing more than two decades of experience in the technology industry. After spending 13 years managing teams providing business solutions into manufacturing and distribution, she joined Great Plains in 1996 as they entered into the Upper Midmarket and grew the Southern California area partner capacity and sales to be the #1 area year over year. Since that time, she has developed an ecosystem of partners, community and team members driving solutions to small and midmarket firms.

In June of 2007 Donna was named as one of Los Angeles' most influential women by the Los Angeles Business Journal.
