Collins Computing Receives Great Plains Excellence Award from Microsoft Business Solutions for Outstanding Achievements

Award Presented During Microsoft's Worldwide Partner Conference

MISSION VIEJO, CA - October 13, 2003 - Several key criteria were reviewed by Microsoft Business Solutions in selecting partners for special recognition, including: outstanding sales performance, exemplary technological expertise on Microsoft Business Solutions products, consistently high customer satisfaction ratings, feedback from peers and team members, and a sincere commitment to improving the lives and business success of Microsoft Business Solutions customers. Collins Computing was one of 39 worldwide partner organizations that received an award during the Microsoft Business Solutions Global Recognition Ceremony.

"We're delighted to honor Collins Computing for their achievement of this award," said Margo Day, vice president of the U.S. partner group at Microsoft. "Collins Computing is an outstanding partner who consistently demonstrates an unwavering commitment to customer satisfaction."

Collins Computing provides implementation, customization, training and consultation for business management solutions in Southern California. It specializes in Microsoft Business Solutions Great Plains and Customer Relationship Management.

Randy Forkner, president of Collins Computing says "We thank our loyal employees, customers, business partners and Microsoft for this award. We are proud to deliver products and services that create such exceptional value for our customers."

About the Microsoft Certified Business Solutions Partner Program

Microsoft Certified Business Solutions Partners are independent companies that provide Microsoft-based end-to-end solutions and services to corporate, government, and small- or medium-sized businesses.

About Collins Computing

As the "Great Plains Excellence" award winner in 2003, and the "US Outstanding Partner of the Year 2002" for Microsoft Business Solutions, Collins Computing has earned its reputation by focusing on creating tangible, bottom line results for its customers. Collins has a full-service consulting group, its own in-house development department, a team of Microsoft Certified System Engineers, and an inbound call center for application and IT support.
