Collins Computing Again Included as a VAR Star

January 8, 2014: Only 100 organizations are recognized each year as one of “Bob Scott’s VAR Stars”, which includes Collins Computing. Collins Computing, a southern California Microsoft Dynamics ERP and CRM partner, is often honored for their accomplishments in the field of midmarket financial software.

Members of the VAR Stars were selected based on factors such growth, industry leadership and recognition, and innovation. Selection is not based on revenue and those firms chosen represent a wide range of size and many different software publishers of accounting software.

“Each year, 100 VAR Stars are picked from the best organizations that market financial software. It is always an honor to recognize those who contribute to the development of our business,” Bob Scott said.

Randy Forkner, President of Collins Computing, states “It’s a privilege to be recognized for so many years in a row as a VAR Star. It speaks to the great value of the products and services we deliver to clients every day, as well as our leadership in this industry. We’re focused on bringing innovation, business solutions, and industry expertise to the clients we serve every day.”

ABOUT COLLINS COMPUTING

Founded in 1986 and located in Orange County, California, Collins Computing is the largest Southern California Gold Certified Microsoft Dynamics partner. Collins Computing is the only Microsoft Dynamics partner to be named to the prestigious Microsoft Inner Circle for 14 years. Exclusively delivering Microsoft Dynamics ERP and Microsoft Dynamics CRM applications, they’ve implemented solutions for some of the largest and fastest-growing businesses and non-profit organizations.

About Bob Scott

Bob Scott has been informing and entertaining the mid-market financial software community via his email newsletters for 13 years. He has published this information via the “Bob Scott’s Insights” newsletter and website since 2009. He has covered this market for 21 years through print and electronic publications, first as technology editor of Accounting Today and then as the Editor of Accounting Technology from 1997 through 2009. He has covered the traditional tax and accounting profession during the same time and has continued to address that market as executive editor of the Progressive Accountant since 2009.
