

6 Reasons Organizations Are Moving to Acumatica

Collins
COMPUTING

When considering a move to Acumatica, organizations take into account several key factors, including feature functionality, flexibility, automation capabilities, and ease of use. As a modern, cloud-based ERP system, Acumatica offers a range of benefits that appeal to all businesses.

Below are six reasons businesses are choosing Acumatica.

1 Cloud-Based Flexibility

Acumatica is built as a cloud-first ERP solution and is designed to empower businesses with better flexibility and scalability while providing users with remote access to key resources and data.

IMPROVED PERFORMANCE

ENHANCED SECURITY

REAL-TIME DATA

ANYWHERE ACCESS

2 Unlimited Users

Acumatica offers unlimited user access with its subscription model, eliminating the need for additional user licensing fees. This can be a significant advantage for companies that want to scale quickly without escalating costs as they add more users.

3 Advanced Reporting

Acumatica's real-time reporting and business intelligence features give managers and executives a clearer view of financial performance and business metrics.

The reporting in Acumatica is much more robust. Acumatica offers more real-time reporting and easier ability to export information.

– Christina, Outdoor Dimensions

4 Powerful APIs

Acumatica's APIs enable smooth integration with a wide variety of third-party applications, such as CRM systems, e-commerce platforms, and other business software.

MINIMIZE MANUAL DATA ENTRY

ELIMINATE SILOS

IMPROVE SYSTEM COMMUNICATION

Strong financial management and reporting capabilities!

5 Tailored Workflows

Acumatica offers users greater out-of-the-box flexibility and features a range of modules that can be tailored to meet specific business requirements. It also facilitates seamless integrations with other systems.

6 Effortless Upgrades

Because Acumatica is a cloud-native solution, updates and patches are automatically handled in the cloud. This reduces the burden on IT staff to maintain the system while also significantly reducing system downtime.

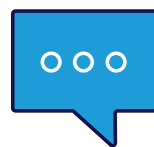

With Acumatica upgrades, you blink and it's done! The upgrade is scheduled for an evening, and the next day you just log back in. It's so convenient to the customer! The techs are with you from the beginning to the end.

– Beverly, YWCA of Los Angeles

We recommend any customers considering a move to look at their options holistically and consider both their requirements for a new solution but also the team that will guide them through the process. Identifying a reliable support team to assist with the transition is absolutely crucial.

– Wendy, MSIA
